ABOUT ME

Motivated UX Designer with 1.5 year of hands-on experience crafting user-friendly digital products. I specialize in user research, wireframing, prototyping (Figma, Adobe XD), and responsive design using React, HTML, CSS, and JavaScript. At Infobytes Technosys, I contributed to real-world projects like the Paytrakz App, a Dairy App, and lead generation pages—focusing on accessibility, usability testing, and design systems.

In addition to product work, I've trained students in UI/UX fundamentals, Adobe Photoshop, and WordPress. I supervised their design projects, mentored them on UX principles, and guided them in building and deploying their own websites. I also designed and developed the institute's official website using modern UI/UX practices and responsive design techniques. I enjoy collaborating with cross-functional teams and continuously improving digital experiences that are both functional and engaging.

WORK EXPERIENCE

FEB 2024–FEB 2025

INFOBYTES TECHNOSYS

INTER–JUNIOR UIUX DESIGNER

- Sure! Here's a concise version of your description:
- Designed and maintained UI for Infobytes Technosys website and internal tools.
- Contributed to Paytrakz App dashboard design and testing for smooth UX.
- Built a complete Dairy App using React, HTML, CSS, and JavaScript.
- Conducted user research, created flows, wireframes, and prototypes (Figma, Adobe XD).
- Collaborated with developers for seamless design handoff using design systems.
- Enhanced lead gen pages through usability feedback, boosting conversions.
- Ensured WCAG 2.1 accessibility and cross-browser compatibility.
- Let me know if you'd like this tailored for a resume, LinkedIn, or portfolio.

JAN 2025 –PRESENT

Timmerman Industries
